

AMERICAN FUNDS MODEL PORTFOLIOS PROGRAM SUPPLEMENT

You are receiving this Program Supplement because you currently have or recently opened an American Funds Program Account. This Program Supplement, as may be amended from time to time, applies to any existing, new, or future American Funds Program Account you open under your Master Advisory Agreement (“MAA”) with Adviser, which is the governing document of each of your Advisory Accounts. This Program Supplement is incorporated into and a part of your MAA and offers additional important information about your selected Advisory Account Program. This is an AMS Managed Program. See your MAA for information on “**Duties of Adviser**” for each Advisory Account Program. *Any capitalized term not defined in this Program Supplement shall have the meaning ascribed to it in the MAA.*

You can access a copy of the MAA and Program Supplements for each available Program at www.raymondjames.com/maa or request a copy from your Financial Advisor. The Disclosure Documents, including the applicable Wrap Fee Brochure, are an integral part of your advisory relationship under the Master Advisory Agreement, and include additional information regarding the Advisory Account Programs, applicable fees, and conflicts of interest. You certify receipt of the applicable Disclosure Documents. Raymond James Disclosure Documents are also available at www.raymondjames.com/legal-disclosures.

OVERVIEW AND PROGRAM TERMS

The American Funds Model Portfolios Program (“American Funds Program”) is an AMS Managed Discretionary Program through which AMS has discretionary management duties over designated assets in accordance with the model portfolio you have selected. AMS has entered into a subadvisory agreement with Capital Research and Management Company (“Capital Research”). In its capacity as Manager, Capital Research designs, monitors, and delivers Model Portfolios to AMS that are comprised of open-end mutual funds of Capital Research’s affiliate, American Funds, for each Model Portfolio available in the Program. Thereafter, Capital Research will communicate periodic updates to AMS. You authorize AMS to assume all investment duties and exercise sole investment authority with respect to assets held in the Account. By selecting this Program, you acknowledge that each Model Portfolio consists of allocations of funds selected solely from American Funds and that no other funds or investments are considered in the construct of any Model Portfolios. ***Please reference your MAA and Disclosure Documents for additional information regarding this Program.***

You understand that this Program involves the investment in mutual funds and the Fee does not include investment costs associated with mutual funds that are the basis of your selected strategy. For the mutual fund strategies in the Program, you also pay your pro-rata share of the annual management fees and operating expenses charged by open-end mutual funds. The cost structures of mutual funds differ significantly and will affect the overall costs paid by you. These are the underlying fees related to investment products purchased within the Advisory Account. These annual management fees and operating expenses are assessed by the fund directly and not by Raymond James, and result in you paying more than clients using a Manager or strategy that invests in individual securities, without taking into effect negotiated asset-based fee discounts, if any, as described more in the Disclosure Documents. To the extent that you intend to hold mutual fund shares for an extended period of time, you should review these mutual fund expenses in addition to the Fee charged to your Account when evaluating the costs of the Program.

The American Funds purchased in your Account are no-load mutual funds purchased at net asset value; however, such purchases will not incur any sales charge or commission. See “**Certain Open-End Mutual Fund Expenses and Fees**” in your MAA and in the Disclosure Documents.

TARGET ALLOCATIONS AND ACCOUNT REBALANCING

You understand that the target allocation of the investment strategy you select applies at the time your American Funds Account is established. AMS will invest any additions of cash or Securities to the Account based on the target allocation, and any withdrawals of cash or Securities from the Account may cause AMS to rebalance your remaining Securities to realign with the target allocation. However, your actual asset allocation may not match the target allocation due to fluctuations in the market value of the Securities held in your Account, as well as other factors. AMS will review your American Funds Account thirteen months following its establishment, and annually thereafter, to determine if rebalancing is appropriate based on whether at such time the actual asset allocation varies by more than certain predetermined percentages from the target allocation, as established by AMS. You may also request that AMS rebalance the Account, or you may opt out of the rebalance, if applicable.

FACTORS TO CONSIDER IN SELECTING A STRATEGY

You have selected the strategy noted with your Account details under the “Existing Accounts • Account Profile” or the “New Advisory Accounts • Details and Features” pages, as applicable, enclosed herein. A list of available investment

strategies in the American Funds Program is available from your Investment Adviser Representative and at www.raymondjames.com/allfeebasedprograms (the “American Funds Program Strategy List”). **You should reference this list for disclosures specific to your selected strategy as described below.**

Additional information regarding the equity and fixed income mutual fund investments and allocation weights, styles and sectors, or a discussion of the model strategies is available from your IAR. Further, information regarding the American Fund portfolio managers, investment objectives, risks, charges and expenses, and other matters of interest is available in the American Funds’ prospectus, which you can obtain from your IAR. Model Portfolios in this Program are comprised exclusively of American Funds; you understand and acknowledge that alternative investments or investment programs are available to help you achieve your investment goals.

The target equity and fixed income allocations established for each American Funds Program Model Portfolio apply at the time the Account is opened or rebalanced, which may deviate from the actual allocation as a result of the capital appreciation or depreciation of the underlying funds. AMS or Capital Research reserve the right to modify the target allocation. American Fund investments and cash target allocation weights (by percentage) are available upon request from your IAR.

INVESTMENT RESTRICTION REQUEST

You may request reasonable investment restrictions through your Investment Adviser Representative, which may include that AMS place certain industry or product type investment restrictions on your Account. You understand that AMS may determine your requested restriction is not reasonable in its sole discretion. If any of the restricted Securities are currently held in the Account, you understand they will be sold at the time the restriction is accepted without regard to tax consequences. Additional information regarding investment restriction requests is contained in your MAA and Disclosure Documents.

MODEL MANAGER DISCLOSURE

Capital Research develops the Model Portfolio asset allocation and selects the underlying mutual funds populating the respective Model Portfolio. No Model Portfolio recommendations made by Capital Research to AMS pursuant to such Model Manager’s subadvisory agreement with AMS will be based on the circumstances of, or otherwise tailored to, your individual investment

objectives, or deemed to be investment advice from Capital Research to or for you.

FEE SCHEDULE

The American Funds Program is a Wrap Fee Program. ***If this is a new American Funds Program Account, the asset-based Fee that will be applied to your Account, and the Fee Schedule applicable to your Account, is noted on the “New Advisory Accounts • Details and Features” page, enclosed herein.*** For existing Accounts, your Fee is as previously agreed to with your Adviser. This Fee generally includes compensation paid to Adviser and IAR, for advisory services provided to you on this Account, and to RJA and/or its affiliates for execution, clearing, custodial, and other administrative and advisory services. Advisory services within a Wrap Fee Program may include portfolio management or advice concerning the selection of other investment advisers. Generally, securities transactions in our Wrap Fee Programs are effected “net” (i.e., without commission), and a portion of the wrap Fee is considered to be inclusive of commission charges. Please reference your MAA under “**Fees and Billing**” and the Disclosure Documents for additional information. The minimum investment for all American Funds Program strategies is \$5,000.

TRADE CONFIRMATION FREQUENCY SELECTION

In opening this Account, you were provided with a choice as to whether to receive trade confirmations either (1) immediately following execution of trades, (2) in a Monthly Trade Confirmation Summary, or (3) in a Quarterly Trade Confirmation Summary. If you are receiving this Program Supplement in connection with a new Account, your selection is noted on the “New Advisory Accounts • Details and Features” page with your other new Account details. If you have existing Accounts in this Program and no selection was made by you when incepting your Account, by the terms of your prior Program agreement you agreed to receive only a Quarterly Trade Confirmation Summary. You may change the trade confirmation option you selected at any time by providing written notice to your IAR.

In addition, upon request, Raymond James will provide you “Immediate” trade confirmations for all transactions made during the prior twelve months at no additional cost. Your Fee will not change as a result of your election and your decision to make this election is not a condition for eligibility, or continued participation in the Program.
